Number 2.] —COMMENCED IN 1852.— [25th Edition.

Western Trees for Western Planters.

WHOLESALE

PRICE LIST

[Issued in Jan. or Feb. and Sept. of each year.]

—OF THE—

BLOOMINGTON NURSERY,

(Principal Office, 3-4 mile North-east of the Court House, and 1 mile South of Normal Station,)

[PACKING AND NURSERY GROUNDS AT NORMAL.]

BLOOMINGTON, McLEAN COUNTY, ILLINOIS.

—FOR THE—

FALL OF 1871,

After which these Rates will not be Binding.

F. K. PHOENIX, Proprietor.

BLOOMINGTON, ILL.:
LEADER PUBLISHING CO. PRINT, 210 CENTER ST.
1871.

TO OUR FRIENDS AND PATRONS.

With best thanks for past favors, we offer this list for the coming season, AT LOW CASH PRICES:

With thirty years experience in the business, here and at Delavan, Wisconsin, the Proprietor claims some knowledge of the varities and modes of treatment BEST ADAPTED TO OUR PECULIAR SOIL AND CLIMATE. Our facilities here for prompt forwarding by Railroad or Express, to all sections, are no excelled. We are but two days from Cairo and Dunleith, and but one from Chicago and St. Louis, by daily freight trains. Those familiar with the perishable character of trees and plants, the delay, exposure and expense incident to lots brought from the East—especially in our springs, usually so much earlier than theirs, will need no recommend of ours to induce them to buy West. If Western planters ever want or expect good, cheap trees, they will certainly patronize home or Western Nurseries.

Our Establishment now covers 600 acres, located on high, dry, rolling prairie, perfectly exposed on all sides, and no manure used for most of our trees, giving them a thoroughly ripe, acclimated growth. We believe our stock throughout the largest and cheapest ever offered West. Particular attention desired to the stock of Apple, we believe unequaled for quantity, quality, variety, reliability and hardihood. Of Pear Trees and Stocks, also, we have now nearly 50 acres of both Dwarf and Standard. Our Grape Vines here cover at least 50 acres.

With twelve years experience in the severe climate of Wisconsin, we learned the most hardy sorts for the Northwest; and our extensive acquaintance generally both East and West, during 30 years in the business, has enabled us to collect most of the choice varieties from every section. Hence we offer them as positively known to be correct, or from the very best authorities, and can furnish an admirable assortment for almost ANY SECTION of the country. For the West, most of the leading Eastern winter apples are comparatively worthless ☞For the West, or severe climates, sound, clean, Western grown, low-headed trees, of HARDY SORTS, in good order, are the kind. He who says otherwise, don't know, or wilfully misrepresents. Our trees from here, after thorough trial in Wisconsin and Minnesota, as far North as St. Paul, have given perfect satisfaction. REMEMBER ONE GOOD TREE IS WORTH A DOZEN POOR ONES! The mercury here nearly every Winter goes to 15 or 20° below 0— and occasionally nearly 30° below.

For economy, or new farms, where only a garden spot is available for a year or two, or for shipping to distant points by Express, our SMALL CHEAP SIZES ARE MOST ADMIRABLE.

☞See last Page about planting Young Trees.☜

For propagating and plants 13 large Greenhouses with frames, covering over 18,000 square feet of glass, are used.

☞To our stock of FRUIT TREES, APPLE AND PEAR, Dwarf and Standard, especially the hardy Northern varieties, and fine, cheap, 1 year Standard Pears, EARLY RICHMOND CHERRY, PEACH, SMALL FRUITS—including Philadelphia Raspberry, KITATINNY, WILSON'S EARLY Blackberries—Grapes, Old and New, ROOT GRAFTS, Stocks, OSAGE ORANGE Hedge Plants, SHADE TREES, BULBS, ROSES, GREEN-HOUSE PLANTS, and ORNAMENTALS, throughout, we also ask particular attention. Nothing unsalable or in bad order offered—be it ever so cheap. The growth of our stock the past season has been unusually good.

☞Of Grimes' Golden Pippin Apple, a thoroughly worthy, promising tree, and fruit like Winter Swaar in many respects; the tree hardier, better, the fruit beautiful, first-rate, but not quite equal in flavor, we offer a fine stock of 1, 2 and 3 year trees,—also, Dr. Watson, Early Red Streak, (E. Red Margaret of Beeler), Bethlehemite, delicious, winter, like Newt. Spitzenburg, "Huntsman's Favorite," fine Mo. sort, Stark, Tetofsky, Fourth of July, Haas, etc.; also, many choicest southern sorts.

☞DISTANT DWELLERS, scores of miles from Nursery or railroad station, can obtain BY MAIL for a few dollars, a splendid start of our beautiful Fruit and Shade Trees, Roses and Flowering Plants. What happiness, civilization and profit will grow up with them—Your own Tree and Flower Children! Homes without Children, Trees, Flowers! NEVER a true Home! As well, good Society without Schools, Churches and Newspapers.

TERMS AND CONDITIONS.

1.—Terms Net Cash, to us here, with order, or (where orders are from known parties, or through Express Agents, and for points not too distant), on delivery by Express with return charges added. Our extreme LOW prices, and the utter impossibility of realizing on time sales, must vindicate our terms. If orders cannot be filled, the money will be returned. Parties who wish their goods sent by railroad, to be paid for on delivery, and thus save express charges, may deposit amount of bill and return charges with the express agent, to be sent to me when goods arrive, and send me with their order, the express agent's receipt for the amount so deposited.

2.—Stock and packing guaranteed good. The utmost care taken to have articles true to name, and in no case do we wish to sell except we can please customers. ☞ *We desire to hear from every purchaser, and every lot sent out, not only this but previous seasons as well.*

3.—Articles furnished at prices named only when the number specified is taken, except as follows:—6 will be furnished at dozen rates; 50 at 100; 500 at 1000 rates, where dozen price is $3 or over; 100 price $16 or over, 1000 price $40 or over, except where prices by the 500 are specified.

Rates by the dozen, 100 or 1000 will not apply where two or more sorts or classes offered separately, are included to make up the required number.

4.—On all Wholesale Bills, the choice of varieties must be left to us. Particular varieties named in order, furnished as far as practicable, but we reserve the right IN ALL CASES—to substitute others, equally valuable, if necessary. Orders forbidding substitution we fill as far only as we can supply the sorts specified, and if, *for this reason*, the number is so reduced that a higher rate takes effect, we charge accordingly.

5.—Packing carefully done, in boxes mostly, sometimes bales or parcels, for which a moderate charge; for large boxes 8 or 9 feet x 2½, $4 each; smaller boxes in proportion. This includes cost of packing and delivering at Railroad, Express or Postoffice here. No parcel by mail for less than $1. After packing and delivering at Depot, Express and Postoffice here, the proprietor cannot be responsible for losses by neglect or detention—in such cases claim must be made on the Forwarders. Any mistakes of ours promptly corrected. Trees per car load for Points on these Roads, or connecting ones, can be packed in bulk, and so save cost of boxing.

6.—Parties wishing Retail Orders assorted at the Nursery before packing, will—IN ALL CASES—be expected to furnish a CORRECT Collated List; and to superintend and assist in the work. On lots so assorted, the wages for laborers furnished in the assorting, from the aggregated stock in the trenches, will be charged to the Agent or Dealer.

7—Parties who cannot come to the Nursery to assort their Retail Orders, are required to send Collated List to pack from at the Nursery, and can assort their trees after receiving them. ☞Those wishing Agencies will please apply therefor, sending 10c. for terms. DEALERS wishing to contract should apply as such, early, with list of items and quantity wanted, naming anything not found on our List. Condition, rates, etc., can then be furnished. No commission allowed on sales at these net wholesale rates.

8.—See offer to *Prepay Express Charges*, on page 18.

INSTRUCTIONS AND SUGGESTIONS.

Remittances may be made by Postal Orders, or Bank Draft on New York or Chicago by mail, or U. S. and National currency by express prepaid. Currency if by mail at sender's risk, though for years past *generally safe*. ☞When Postal Orders, Bank Draft or Express facilities can be obtained, don't risk by mail. In sending by mail, I should select thick, dark, stiff envelop, with enough stiff paper inside to destroy the soft feel of bank bills, and have the letter Registered, taking Postmaster's receipt therefore. For the same reason, new, stiff bank notes are better than old and worn ones. A day or two after sending bank bills by mail,

please write again, stating fact and amount sent. In sending Postal Orders, please send them WITH THE LETTER, and NOT as "Red Tape" at Washington directs. Goods ordered by Freight Trains, with part remittance, for points not too distant, where there is an Express Agent, can be sent as freight in his care, with Bill for Collection on Delivery according to "Terms" on page 3. Unknown parties should enclose money, all or part, with order, in Current Bills, Draft or Postal Order.

Packages of Plants, &c., up to 4 lbs. can be sent by Mail, on pre-payment of 2 cents postage for every 4 oz., or fraction over----a privilege not half apprcciated as yet. Of 20 wagon loads of mail packages sent by us last season, nearly every article arrived in good condition. Orders for goods to distant points should also include pay in full.

☞PLEASE LET US KNOW WHAT YOU WANT—FORM CLUBS AND BUY AT WHOLESALE! SPECIAL INDUCEMENTS ON LARGE AND EARLY ORDERS.

☞Parties ordering will please send EARLY, with order legible and separate from body of letter, with name of Postoffice, County and State ON THE ORDER, and be particular to state how they wish packages and invoices directed. Please let, if possible, all needed specifications as to age, size, style, etc., be included in the one order, to save trouble of referring to previous correspondence in hurry of season. ☞In Cities always give Street and No., or No. of Postoffice Box on every letter.

TO AVOID MISTAKE AND LOSS.—Please never omit in an Order or Letter the following items: 1st, P. O.; 2d, Co.; 3d, State; 4th, Articles Wanted; 5th, giving the Age, Class or Size, exactly as offered in this List. Please WRITE Numbers wanted to each lot, in Figures, without using DITTO Marks or Abbreviations.

☞Where Mailing will not answer, Expressing is confidently recommended on all small perishable lots, or for great distances, where there are many reshipments. Small plants, as Strawberry, Verbenas, Grapes, Roses, &c., packed in moss, and sent by mail if desired. We have abundance (several car loads) of moss for putting up all choice and delicate plants.

If packages do not reach you soon after receiving notice of shipment, *write immediately*, that I may do what I can to trace and hasten them forward.

We usually commence packing in the Fall about the 10th of October, and in the Spring by the 12th of March, or sometimes the last of February. For the South or Expressing, we frequently pack and ship during mild weather in Winter. Cions, Stocks, Grape Vines, Root-Grafts, and Greenhouse Plants can be sent at any time in their season.

Present R. R. Freight on Trees in boxes per 100 lbs. to Dubuque, (or Dunleith,) 206 miles, 69 cts.; Freeport, 139 miles, 65 cts.; Dixon, 103 miles, 63 cts.; Mendota, 75 miles 58 cts.; LaSalle, 59 miles, 45 cts.; El Paso, 17 miles, 23 cts.; Decatur, 43 miles, 37 cts.; Pana, 76 miles, 58 cts.; Centralia, 130 miles, 65 cts.; Cairo, 248 miles, 76 cts.; Chicago, 125 miles, 50 cts.; Joliet, 88 miles, 59 cts.; Springfield, 56 miles, 40 cts.; St. Louis, 156 miles, 55 cts.

☞One thousand Apple trees packed for shipping, ordinarily weigh—1 year, 1 to 3 feet, about 400 lbs.; 2 years, 3 to 5 feet, 800; 3 years, 4 to 6 feet, 1,400; 4 years, 5 to 7 or 8 feet, 2,200 lbs

☞DESCRIPTIVE CATALOGUE 100 PAGES 10c; BEDDING PLANT CATALOGUE, 32 PAGES, (SPRING ONLY), BULB CATALOGUE IN FALL, AND WHOLESALE PRICE LIST, SEMI-ANNUALLY, FEB'Y AND SEP. GRATIS. FLOWER AND VEGETABLE SEED CATALOGUE. 64 pages, free for stamp. LETTERS PROMPTLY ANSWERED.

☞PLEASE CALL AND SEE OUR STOCK☜

—o—

Among the excellent papers for farmers and fruit growers, we name "The Gardener's Monthly," by Brinkloe & Marot, 23 N. Sixth street, Philadelphia, $2; "The Horticulturist," H. T. Williams, New York City, Monthly, at $2.50 per annum. "The American Journal of Horticulture, Monthly, at $1.50, Tilton & Co., Boston, Mass. "Prairie Farmer," Emery & Co., Chicago, Ill., Weekly, at $2 per annum. "Western Farmer," W. B. Davis, Madison, Wis., weekly, $2. "Iowa Homestead," Des Moines, Iowa, weekly, $2. "The Western Rural," H. N. F. Lewis, Chicago, Ill., weekly, $2.50. "Northwestern Farmer," T. A. Bland, Indianapolis, Ind., monthly, $1. "Colman's Rural World," weekly; by Norman J. Colman, St. Louis,

Mo., $2. "Journal of Agriculture," R. P. Studley & Co., St. Louis, Mo., weekly, $2. "American Entomologist," monthly, $2, R. P. Studley & Co., St. Louis, Mo. "The Ohio Farmer, Cleveland," Ohio, weekly, $2.

Of those East, the two best Weeklies are the "Country Gentleman," by L. Tucker & Son, Albany, N. Y., $2.50; and the "Rural New Yorker," by D. D. T. Moore, New York City, at $3. The "Agriculturist," the most enterprising and popular agricultural monthly, nicely illustrated, by O. Judd & Co., 245 Broadway, N. Y. City, $1 50.

Of the Southern Journals, the "Southern Cultivator," monthly, at $2, by Wm. & W. L. Jones, Athens, Ga., and the "Southern Ruralist," by H. A. Swasey, Amite City, La., semi-monthly, at $1 50; and the "Farmer's Home Journal," Lexington, Ky., weekly, $3.

Every Farmer, Gardener or Fruit-Grower in America should take as many of the above as he can afford.

ROOT GRAFTS

Are Cions and Roots grafted and tied together, ready for Planting in permanent Nursery rows. From the ground up, therefore, the growth from the Cion is of the grafted species. This is almost the universal mode of starting Apple Nurseries.—Pear, Cherry and Plum Root Grafts, though less certain than Apple, are gaining in popularity, and with good care and favorable season, will usually produce good results. Pear and Cherry Root Grafts are always STANDARD: Dwarf Root Grafts will not grow.

Orders for special list of sorts MUST BE SENT EARLY, with ⅓ cash with order. We offer the very largest and best assortment we know of.

Our Grafts are on first-rate Seedling Roots, the Cions mostly from bearing trees, and are made in very best style, and packed ready for shipping. Even 50s or 100s of each sort will be put up at following prices on orders received before December 1st, with ⅓ cash. For smaller or broken lists, prices will be given on application.

	100	500	1,000	10,000	100,000

☞ SPECIAL OFFER. ☜

When cash in full accompanies order, I will pack in best manner, and PREPAY EXPRESS CHARGES to any Railroad point reached by the United States or American Merchants' Union Express Company, in the States of Illinois, Wisconsin, Minnesota, Iowa, Missouri, Indiana, Ohio and Michigan, as follows:

On packages of Plants, weight not over 4 pounds, for 50 cents additional.
" " " Seeds, " " " " " " 35 cents "
(Less 5 cents for each full pound less than four.)
On packages of Plants, weight not over 8 pounds, for 80 cents additional.
" " " Seeds, " " " " " " 60 cents "
(Less 5 cents for each full pound less than eight.)

The above includes all charges for packing. As it is impossible to estimate the EXACT weight of packages beforehand, be sure and send enough; any overplus will be promptly returned.

BOOKS AND COLORED PLATES.

Order Books for Canvassers—Best style	50	$5 00
Colored Lithographs of Fruits—Drawn from nature	25	
" " **Flowers, Shrubs and Grapes**	35	

☞ Fifty or more Colored Plates, in one order, will be neatly and substantially bound, if desired, without extra charge. Send for list. Four samples of Colored Fruits sent by mail for $1.

PLANT YOUNG TREES.

We advise most decidedly to plant young trees, in orchard and gardens, and for the following reasons:

1.—Young trees cost less throughout—at the nursery, in freight charges, also in handling and planting.

2.—They are surer to grow, having in proportion to the size of tops, vastly more and better small, fine (fibrous) roots. Large trees in moving usually lose half or more of their most valuable roots.

3.—Having less tops and almost perfect roots, the small trees become established, and grow off vigorously at once. The tops of large trees newly planted are often shaken and blown about by the wind until they become leaning, and unhealthy, even if they survive.

4.—Making most of their growth on the ground where they are to stand, the small trees soon become more stocky and sturdy, every way perfectly adapted to the soil and location, as well as the preference of their owner. Setting young trees the planter can fashion both bodies and tops exactly to suit his fancy.

5.—"Setting such young trees will we not lose time?" you ask. To answer truly, I reply, if you give these young trees the first year or two a little *extra watching and care*, to the amount, say, of the difference in their cost, you *will not lose a day*, but get thereby a much handsomer and more valuable orchard.

6.—Or, if not ready to plant out in the orchard permanently this year—or, if about to open in a year or two a new farm as for a Son or Daughter, why not plant yearlings or root grafts, growing them yourself in the garden with but trifling cost. In the mean time your children can study and learn all about them as well as about colts or pigs. Root Grafts are set in deep, mellow soil, with dirt firm about roots, dipped, just before setting, in "grout," *i. e.* mud and water, with the top of Graft or Cion, two inches or so above surface.

The most thorough and successful large planters we cannot persuade to buy and plant ordinary or large-sized trees. Even at the same price they invariably prefer the 1 or 2 year trees, knowing that with a fair chance the young, thrifty trees will, in 4 or 6 years at most, overtake the best planted large trees. It is indeed surprising to witness the thrift and vigor of 1 and 2 year trees well planted and cared for, especially the first two years after setting. Their cultivation is as simple as corn or cabbage. Unless on a side hill where soil washes badly, plant only an inch or two deeper than they grew in Nursery, as deep planting ruins many trees. The first season in the orchard two or three short stakes by each tree may be well enough, and then see that the ground is properly stirred, the cattle, vermin and weeds kept away. Planting a few large trees for immediate bearing and effect, as about cities and towns, is a very different matter. In such cases expense and risk are no object. For complete homes, surrounding trees as near perfect maturity as possible, are imperatively demanded; hence large-sized trees are of prime importance.

The distant dweller on the prairies has neither money nor time to tamper with such large trees. Give him the young trees, and with reasonable care he can soon show better specimens than his more ambitious, suburban neighbor, besides the money he saves by planting small trees.
